

Programmer Analyst – Web Developer - Linux Administrator.

Personal Information

Name: Oscar Ferraro.
Date of Birth: 13/10/1977.
Residence place: Barcelona - Spain.
Nacionality: Italian – Argentine.
Mobile: (+34) 626 59 46 60.
Skype: oferraro.com.ar
Languages: Spanish and English.
E-mail: oscar@oferraro.com

I am a web Developer and also a Linux Administrator, I have more than **12 years of experience in PHP programming** and related technologies. Typically I work with **HTML5, CSS3, Bootstrap, Less, Web Design, Responsive, template systems** (like **Smarty, Blade, Twig**), **Javascript, Angularjs, Jquery, Ionic, JSON, XML, Mysql, Memcache, Redis, Mongo, MS SQL, Postgres, SQLite**, etc.

I have experience with **Frameworks** like **Laravel, Codeigniter, Kohana, Symfony I, Symfony II**, etc and without Frameworks, coding from scratch and with legacy websites.

I have worked with CMS like **Wordpress, Joomla, Drupal, Prestashop**, etc.

I have worked freelance, in small and big teams, in charge of teams, with agile methodologies like **Scrum and Kanban**.

I have also worked with technologies like **Nodejs, Unit tests, APIs** like **Facebook, Pusher, APCO, MangoPay, Mercado Pago**.

When I started working in IT I worked with **Java, Delphi, Visual Basic**, etc.

I have been working with Linux for more than 12 years, I have a very good knowledge of these distributions: **Debian, Ubuntu, Mandrake, Red Hat, RHEL, Centos, Fedora** and some experience with other distros and Unix systems like **Suse and FreeBSD**.

I have worked in small and big projects, like CRMs, newsletters, ecommerce, managment systems, entertainment, medicine, coupon/discount systems, etc.

I like teaching and I have more than **10 years of teaching experience**, I taught courses at **Red Hat, IBM**, and in recognized institutes and Universities of Latinamerica. I have taught **PHP, Red Hat and IT Security**.

I have worked with design, using **Photoshop, Gimp, Fireworks** and I also worked with **SEO and SEM** too.

I have experience with version control systems like **SVN, GIT, Gitlab, Bitbucket, Mercurial, Trello, Jira, Atlassian, etc**.

As a freelancer I worked with high traffic websites like freelancers websites, coupons/discounts, food delivery, etc

Professional Experience

01-1997 - to present. **Free Lance programmer, Linux Administrator, Technical Support.**
Website development, **Linux Servers administrator.**

07-2015 – Currently. [Duplexmarketing](#)

Web Developer (Fullstack) - Linux Administrator

Programming with PHP/MariaDB and related technologies like: HTML5, CSS3, XML, JSON, Nodejs, Reactjs, Jquery, Laravel, Codeigniter, etc. Versioning with Git. Linux Administration, etc.

08-2015 – 07-2015. [Prospectos Online](#)

Web Developer (PHP/Mysql) - Linux Administrator - Part-time

Programming with PHP/MariaDB and related technologies like: HTML5, CSS3, XML, MariaDB, AJAX, JSON, Angularjs, Jquery, Laravel, Codeigniter, Nodejs, etc. Versioning with Git. Linux Administration, etc..

05-2013 - 02-2015. Just Some CodingWeb Programmer (PHP/Mysql) - Linux Administration (Ubuntu/Centos).

Web programming with PHP, Mysql, CSS, HTML, XML, JSON, Javascript, JQuery, XML, Git, gateway payment integration (APCO), etc.

Linux Administration: Instalation, deployment, configuration, uptades, security, etc.

Projects: I am working at the moment in a Ecommerce for food delivery with CodeIgniter.

Before, I was programming Android apps for sell products online, and for the Peru Airport (showing/updating the flights status).

07-2012 al 05-2013. [42Telecom](#)

PHP/Mysql programmer. Linux Administrator.

Web programming with PHP, Mysql, Javascript, XML, Jquery, AJAX, etc.

Linux Administration, configuration, security, installations, etc (with Ubuntu).

Projects: The main project was a GUI for a telecommunication plataform that was used for big companies like Vodafone to block SMS spam, voice, data etc. The main application is written in C language and the GUI that I made is presenting the configuration of that, and allow the users to manage all these configuration. I made this GUI with MVC pattern from scratch, without frameworks.

04-2010 / 04-2011. [Mediabit](#)

PHP Programmer and Linux Administrator for a project.

Programming PHP, using Scrum.

With Kohana framework and Joomla CMS.

In charge of Linux Servers.

Projects: The main project was a website similar to EBay but in this case for sell spare car parts online.

10-2008 / 04-2010. [Red Hat](#)

GLS Instructor: Instructor Red Hat.

Teaching the official courses of Red Hat in Argentina and in another Latin American countries, set up of training, check/correct material, translations, take exams, etc.

01-2005 / 10-2008. [Netintek Argentina](#)

Programmer Analyst: PHP/Mysql, Postgresql, sql Server1, AJAX, Drupal.

Linux Administrador: installation, administration, Qmail, Apache, Mysql, Squid, Iptables, etc.

Developing and administration of newsletters system: **programming with PHP and an alternative system for Microsoft programmed with Java**

SEO: Search Engine Optimizer.

Projects: The main projects were for City Bank: a CMS from scratch to manage Instituto Pyme information (<http://www.institutopyme.com.ar>), **for** Prosegur (**the Prosegur webpage with a CMS**), **for** Directory (a phone directory online with information of the Government and famous people),

PortalRH (website for Human Resources with more than 30 Human Resources companies administrating all the serachs online, and with all the candidates at the same time). A Newsletters CMS from scratch, an application to manage multiples sites in many web servers over the world, all of them sharing some data and banners, getting the data via web services. And many projects more.

12-2003 / 01-2005. [Trustation Argentina](#)

Linux specialist: software implementations and Linux servers maintaining. Security. Teach and programming.

Projects: The main programming project was a PHP CRM from scratch.

09-1998 / 12-2003. [Poder Judicial - Fuero Penal Quilmes](#)

Auxiliar Cuarto: Customer service.

Programming with **Delphi**, Desktop systems (with networking databases) to manage court cases, Programming a messaging Network Software, computers stock management, etc.

Teaching Experience

04/10 - 08/2010 y 02/2012 – 04/2012. [Educacionit](#)

PHP, Linux Instructor and IT Security.

In charge of teach: PHP/Mysql and IT Security.

Creating courses content, ie: JQuery.

09-2011 - 10-2011 – 02-2015. [CentralTECH](#)

PHP Instructor

In charge of teach PHP/Mysql.

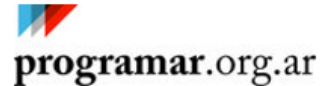

05-2011 – 07-2011. [Xtech](#)

Linux Instructor - Debian

Linux Instructor.

03-2011 – 10-2011. [Proyecto Programar](#)

Linux Instructor, PHP/Mysql Instructor

In charge of teach Linux and PHP/Mysql.

03-2011 / 06-2011. [IBM](#)

Instructor Linux.

In charge of development of course material to the course “proyecto conectar igualdad”.

Teach Linux Administration to high school administrators.

08/06/07 - 05/11/08 and 01/04/10 – 01/10/10. [Linux College.](#)

Linux Instructor, PHP and Security

In charge of teach PHP/Mysql, IT Security/Hacking Linux and Linux Career.

12-2003 – 11-2004. [Trustation](#)

Linux Instructor

In charge of teach Linux (Trustix, Debian, Mandrake and Red Hat), at Trustation, EXO, Universidad de Palermo, Ceitech, Caterpillar, ONTI, etc.

In charge of teach: Trustix Linux - Networking - Security, Web Programming - Kernel (Linux) course - PHP - Linux seminars (Migrating to Linux, Linux beginners, Linux Servers, How to sell Linux, Instalation, etc).

30/9/2004. [Centro Comercial e Industrial de Chivilcoy](#)

Linux Seminar

Linux Seminar of Instalation, Software alternatives, GNU, GPL, etc.

Studies

01-2001 to 1-2006. **University Católica de La Plata. Programmer Analyst.**

University Study Interrupted (3th year complete, 4th assisted).

Additional Courses

07-2015 – 09-2015. [IT Master](#)

Angularjs intensive course
